

PLEASE READ BEFORE INSTALLING

Windssocks can easily become entangled = always keep them away from each other.

When packing away the windsocks = all windsocks need to be individually packed in a storage bag. Try to pack them without having the ropes going in a knot.

**Put the right socks in the right storage bags:
P/piranhas, SP/spikey ball, L/lightening bolt,
R/rainbow tube, T/triple pillow, ST/star
tube, D/diamond tube.**

**When attaching windsocks to the black pole
socks = always leave a hole in between
windsocks or they will become entangled.**
